

SETUP FOR SUCCESS

Archery Only

As an owner-operated outfitter, Bushmen Safaris is set up for the archer. In 1986, we developed an “archery only” hunting conservancy with restricted hunting pressure to ensure greater hunting success.

Dark of the Moon

Bushman Safaris schedules our hunts around the premium “dark of the moon” cycle. Compared to hunts occurring during the full moon phase, this has shown a proven increase in the age of trophies taken providing increased hunter success.

SCI Record Book

Bushman Safaris hunters have taken 12 World Records, 63 Top 5 placings, 115 Top 10 placings, and 335 Top 25 placings, which is more than any other outfitter in the world. Bushmen’s hunters continue to take high-scoring trophies as a result of limited hunting pressure.

Non-Hunters

Bushman Safaris offers superior on-site accommodations and can also help organize once-in-a-lifetime photo and video opportunities in the amazing Kruger National Park to wine tasting in and around Cape Town to one of the world’s largest waterfall, Victoria Falls.

Wildlife Habitat Only

All cattle, cross fencing and concrete watering were removed in 1986, allowing for a “wildlife-only” habitat. This all-natural setting assures excellent genetics and higher-quality trophies.

Return Hunter

Bushman Safaris has an 80% record for return hunters, which goes to show that our high-quality experience is worth a return visit! Our hunts produce an exceptional number of shot opportunities, high-scoring trophies, ideal habitat, optimal blinds, and a high-success rate.

BLINDS / HIDES

Bushman Safari’s blinds have been developed to improve our hunter’s success. Sixteen hides both elevated and ground are located on natural watering holes; they are four-sided and complete with roofing to restrict scent and allow for hunter movement. Each blind has two openings—one for the bow-hunter and one for a video camera. Our large number of hides reduce pressure and allow hunters to enjoy a variety of hunt areas throughout their experience.

USA Staff

Bushman Safaris has a full-time management team in the United States. Each and every question or concern you may have prior to your hunt will be handled by experienced hunters. After your hunt, we will help you follow-up on shipments from South Africa, making sure that your fees and care are appropriate.

Deposits

Your deposit reserves your hunt and then you don’t owe anything until returning from your hunt, guaranteeing that Bushmen Safaris accurately represents its hunts. Bushmen has a proven history, which allows us to provide low cost hunts without cost-cutting the quality of the hunt. Your deposits are safe with Bushmen Safaris
